# Introduction

## About the App

Application created to allow users to purchase items, in this case glasses, the application works both with and without an account, the limitations of not having an account are: not being able to add glasses to your cart or being able to see it, not being able to have addresses or orders due to the first restriction.

A user in turn can manage their addresses, their basket, and view all their purchases to check the status of the purchase.

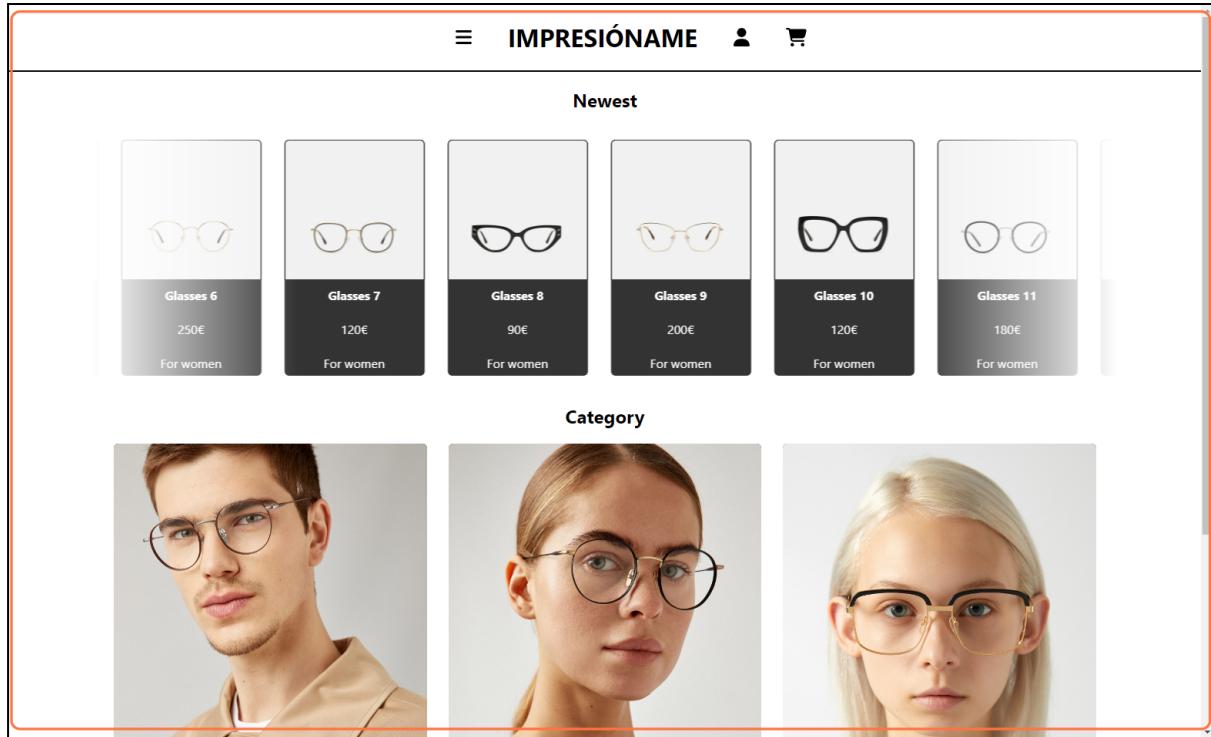

There are also administrators who can do the same as users and can also create new glasses, delete glasses, edit glasses and edit the status of purchases.

## Supported platforms

This application can be used on all mobile devices, both IOS and Android, and on PC as long as you have a browser, whether on Windows, Mac or Linux systems.

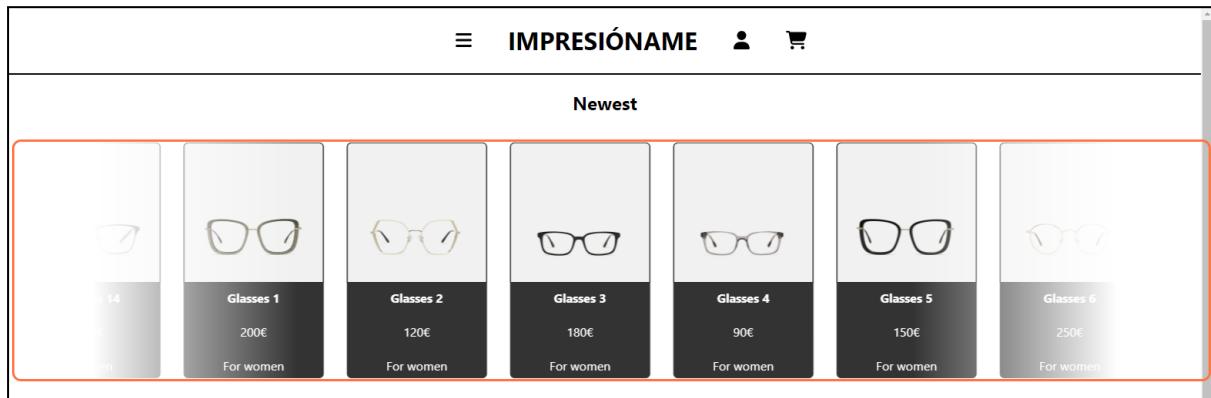

# Home Page

At home we will see the Header, a Newest section and a Category section.

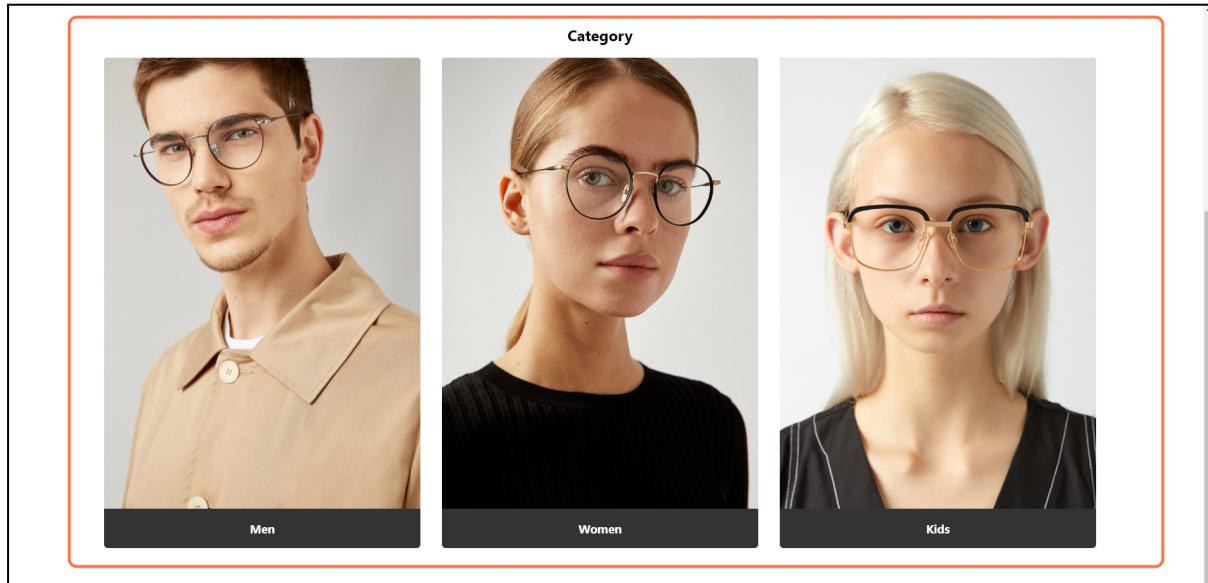

## Newest Section

An animated slider which allows the user to view and select the new glasses.

## Category Section

In the category section we can navigate to three pages, glasses for men, glasses for women and kids' glasses.

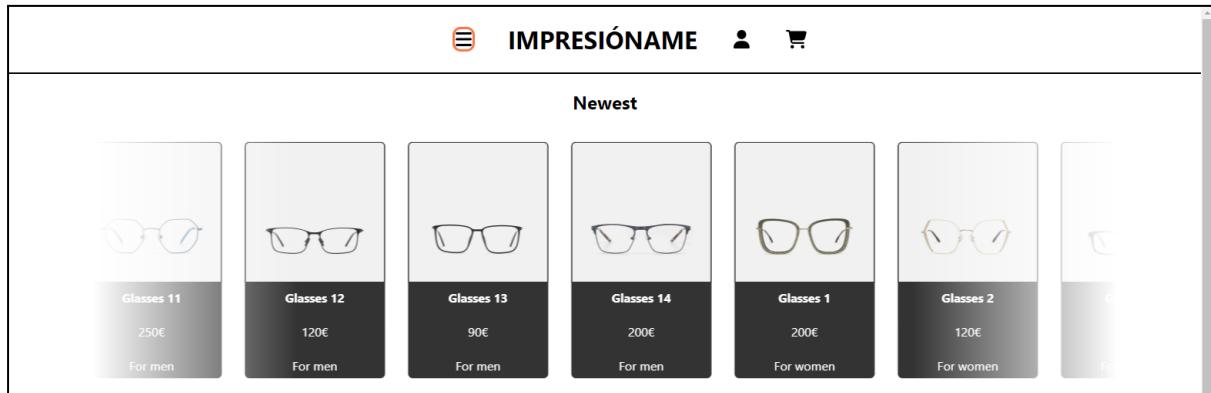

# Navigation

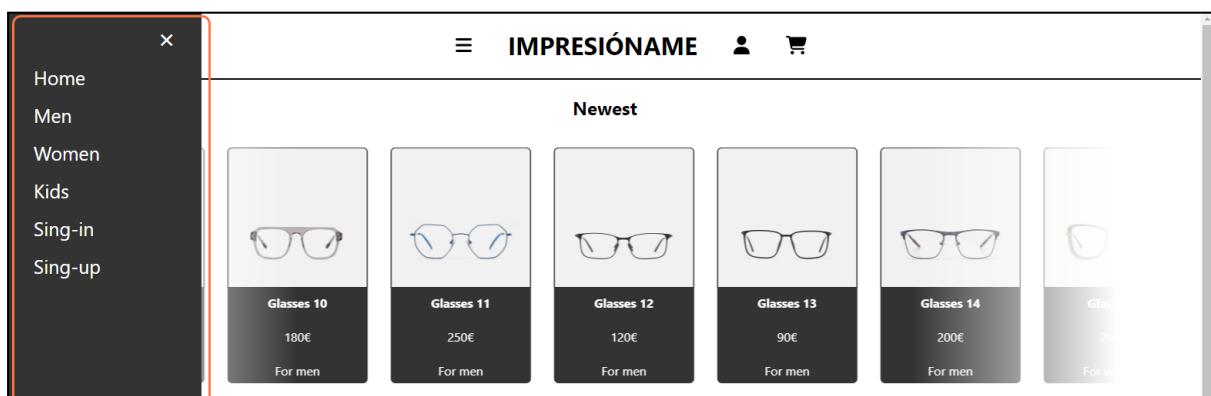

The navigation is divided into two, the side menu and the header with icons.

## Side Menu

To open the menu we will click on the icon with three horizontal stripes.

In the menu we will see the pages in which we can navigate through it.

## Header

In the Header we also have the name of the App that serves as a direct access to Home, and a user icon and a cart icon.

If we click on the user icon we will go to the next section.

## User Pages

Once you click on the user icon, or through the side menu, we will see two great options, log-in or create an account if you are a new user.

The screenshot shows the user login and sign-up interface for the 'IMPRESIÓN NAME' application. At the top, there is a navigation bar with a menu icon, the brand name 'IMPRESIÓN NAME', a user icon, and a shopping cart icon. Below the navigation bar, there are two main sections: 'Sing In' on the left and 'Sing Up' on the right. The 'Sing In' section contains fields for 'Username' and 'Password', and a 'Enter' button. The 'Sing Up' section contains a 'New Users:' heading, a 'Register to have more benefits:' link, and a list of benefits: '- Track your deliveries' and '- Manage all your deliveries'. A 'Create Account' button is also present. The entire form area is enclosed in a red border.

## Log-In

In the form on the left the user can log in.

This screenshot is similar to the previous one but focuses specifically on the 'Sing In' section. The 'Sing In' section is highlighted with a red border. It contains fields for 'Username' and 'Password', and a 'Enter' button. The 'Sing Up' section is visible on the right but is not highlighted. The rest of the interface, including the navigation bar at the top, is identical to the first screenshot.

### Create New User

On the right we will see the advantages of creating a user account, and a button that will redirect us to the page to create a new user.

The screenshot shows the IMPRESIÓN NAME login page. On the left, there is a 'Sing In' section with fields for 'Username' and 'Password', and a 'Enter' button. On the right, there is a 'Sing Up' section with the heading 'New Users:' and a 'Create Account' button. A red box highlights the 'Sing Up' section.

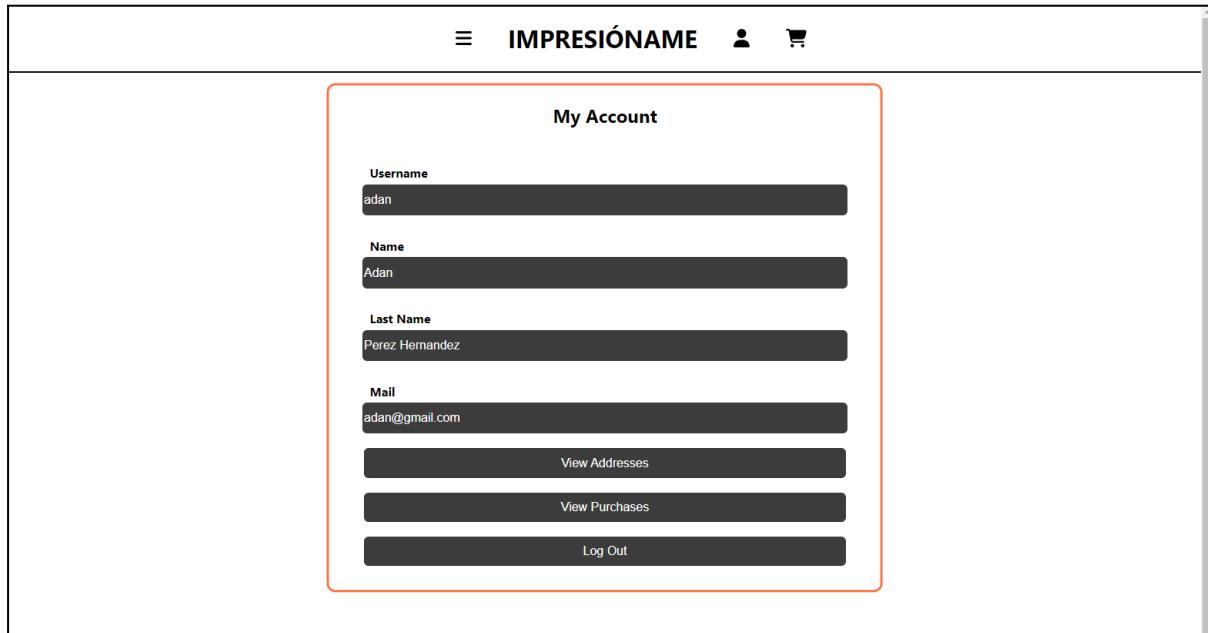

### New User Form

This is the form to create a new user, with a Username field, a Name, a Last name, a Mail and a Password.

The screenshot shows the 'Sing Up' registration form. It includes fields for 'Username', 'Name', 'Last Name', 'Mail', and 'Password', followed by a 'Sign Up' button.

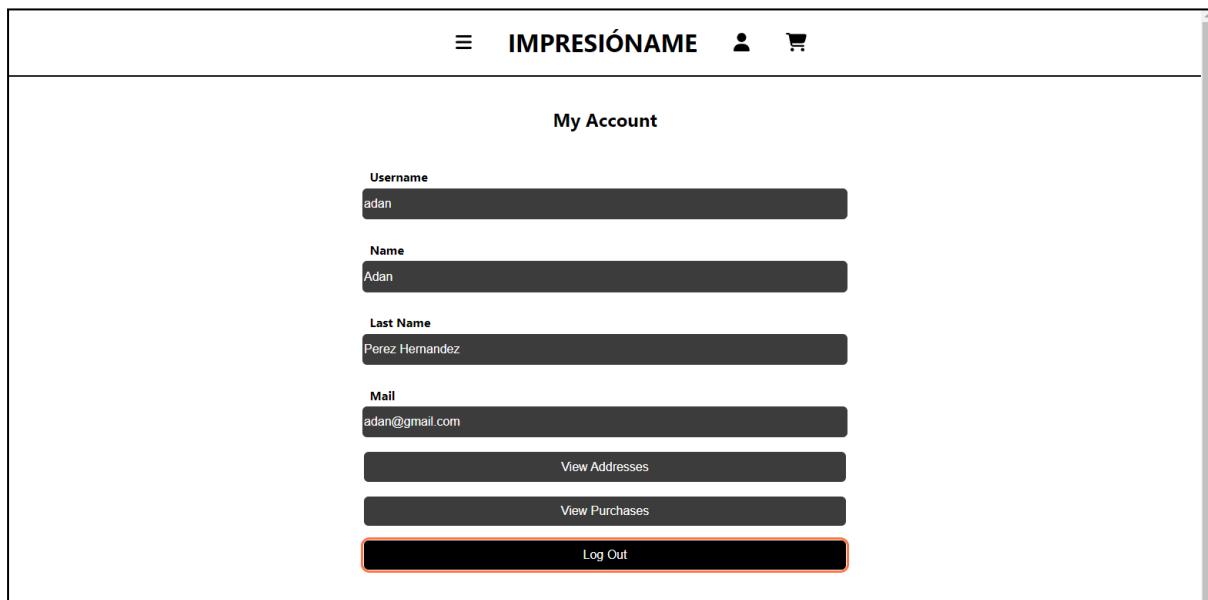

### User Page

The user's page where the user can see their information except the password, also some buttons that will allow them to see their addresses, their purchases, and a log-out button.

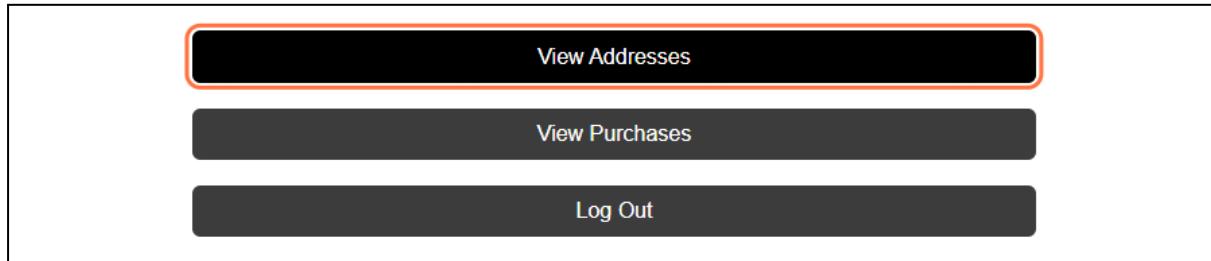

### Log-Out

When you close the section, it will automatically take us to the login page. Keep in mind that the cart does not work without an account, so when you try to access it, it will send you directly to the login page.

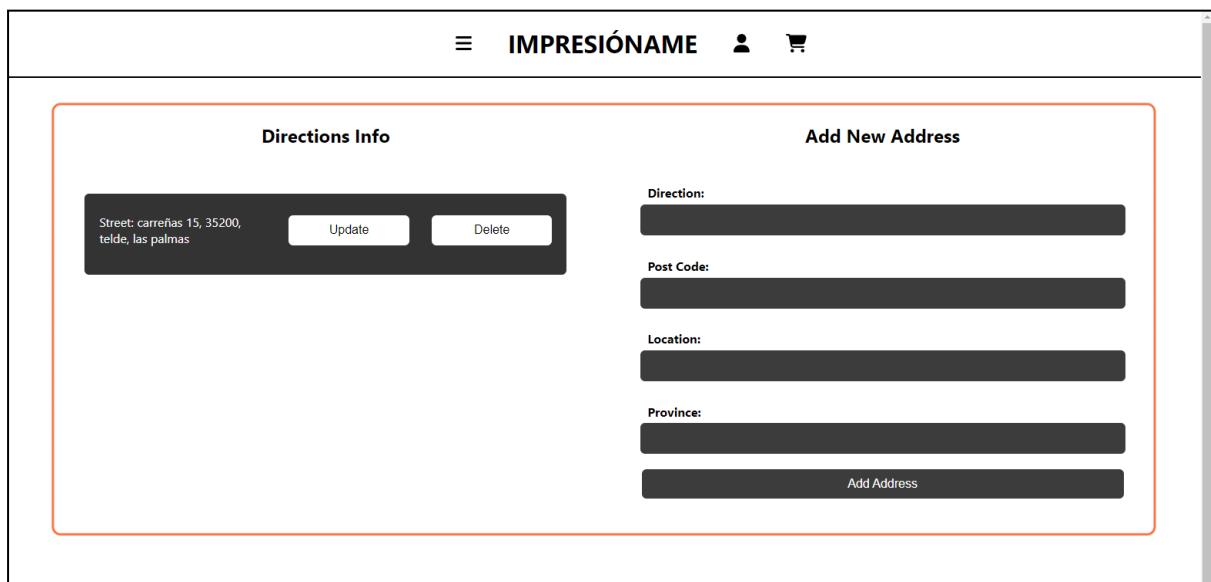

## Directions

To see the user's addresses we will have to access the user's page with the "View Addresses" button.

## Directions Information

It is divided into two, on the left the information of all the user's addresses, and on the right a form to create a new address.

## Add New Address

To add an address we will use the form on the right.

The screenshot shows the IMPRESIÓN NAME application interface. At the top, there is a navigation bar with the title "IMPRESIÓN NAME" and icons for user profile and cart. Below the navigation bar, there are two main sections: "Directions Info" on the left and "Add New Address" on the right. The "Directions Info" section contains a list of saved addresses. The "Add New Address" section is highlighted with an orange border and contains fields for entering a new address: "Direction" (Calle Falsa), "Post Code" (35200), "Location" (Telde), and "Province" (Las Palmas). A "Add Address" button is at the bottom of this section.

And we will see it reflected in Directions Info.

The screenshot shows the IMPRESIÓN NAME application interface after a new address has been added. The "Directions Info" section now displays two entries. The first entry is the previously existing address: "Street: calleñas 15, 35200, telde, las palmas". The second entry is the newly added address: "Street: Calle Falsa, 35200, Telde, Las Palmas". The "Add New Address" section is still visible on the right side of the screen.

## Purchases and Articles

### Basket

To see our basket we must have the section started and we will do so using the cart icon in the header.

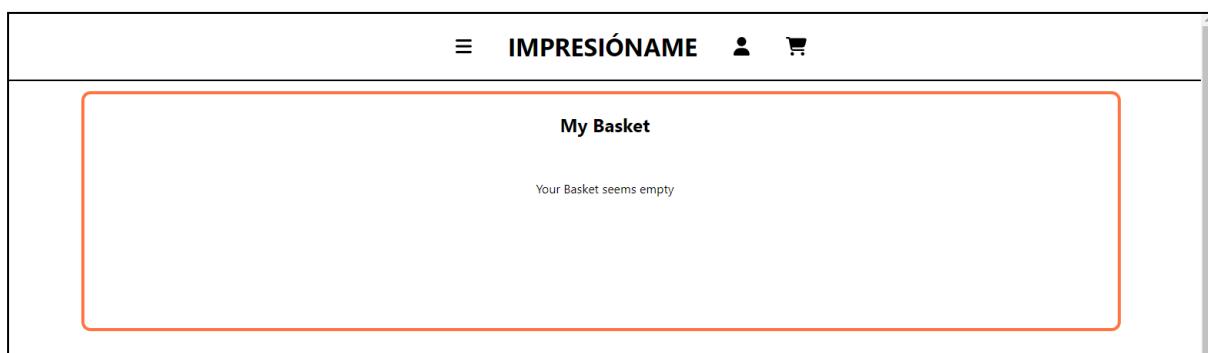

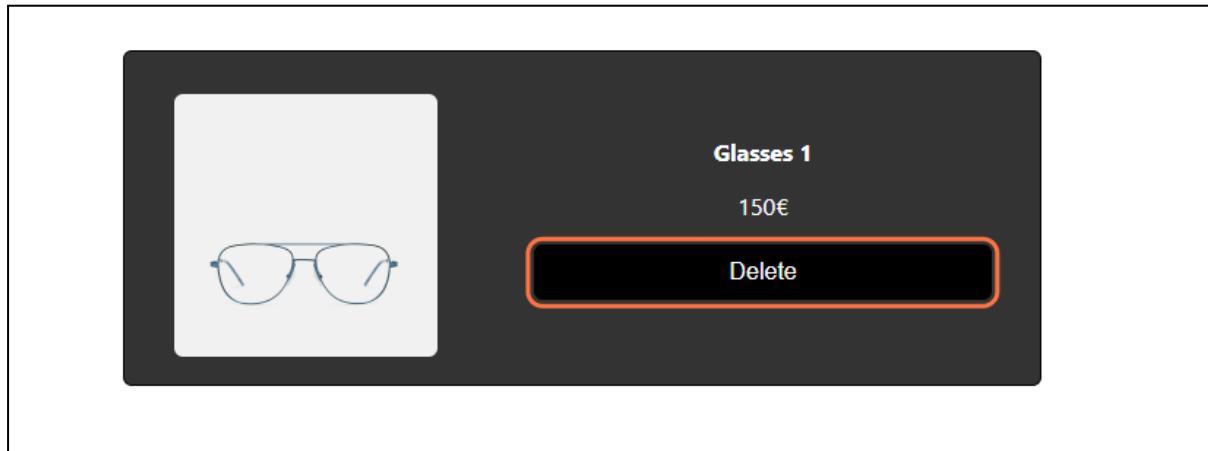

We will see on the left the articles and on the right a resume and the total of the basket, also the button to make a purchase.

A screenshot of a web page titled "My Basket". The page is divided into two main sections. On the left, there is a card for an item named "Glasses 1" with a price of "150€" and a "Delete" button. On the right, there is a summary card with the word "Resume" at the top, followed by "Total: 150€" and a "Do Purchase" button. The entire "My Basket" section is enclosed in a red rectangular border.

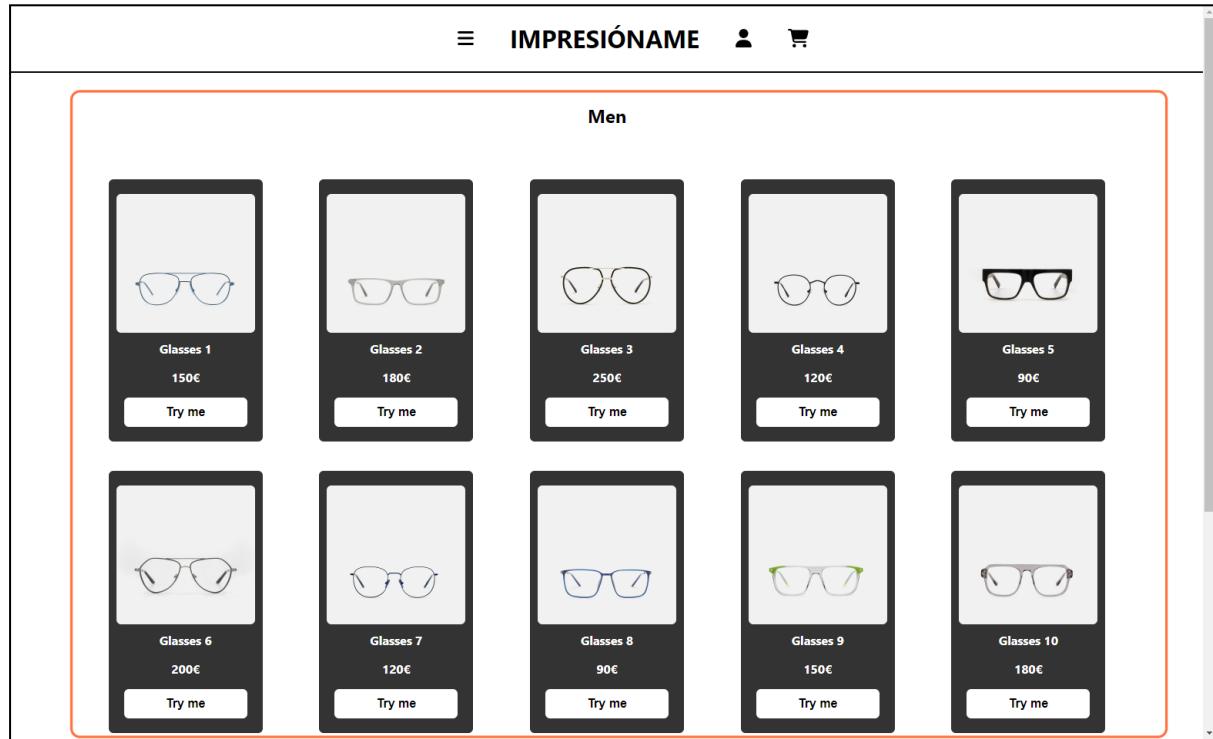

## Delete an Article from the Basket

To delete we will click the delete button on the article, and in this case when it becomes empty it will give us this message, which says your basket is empty.

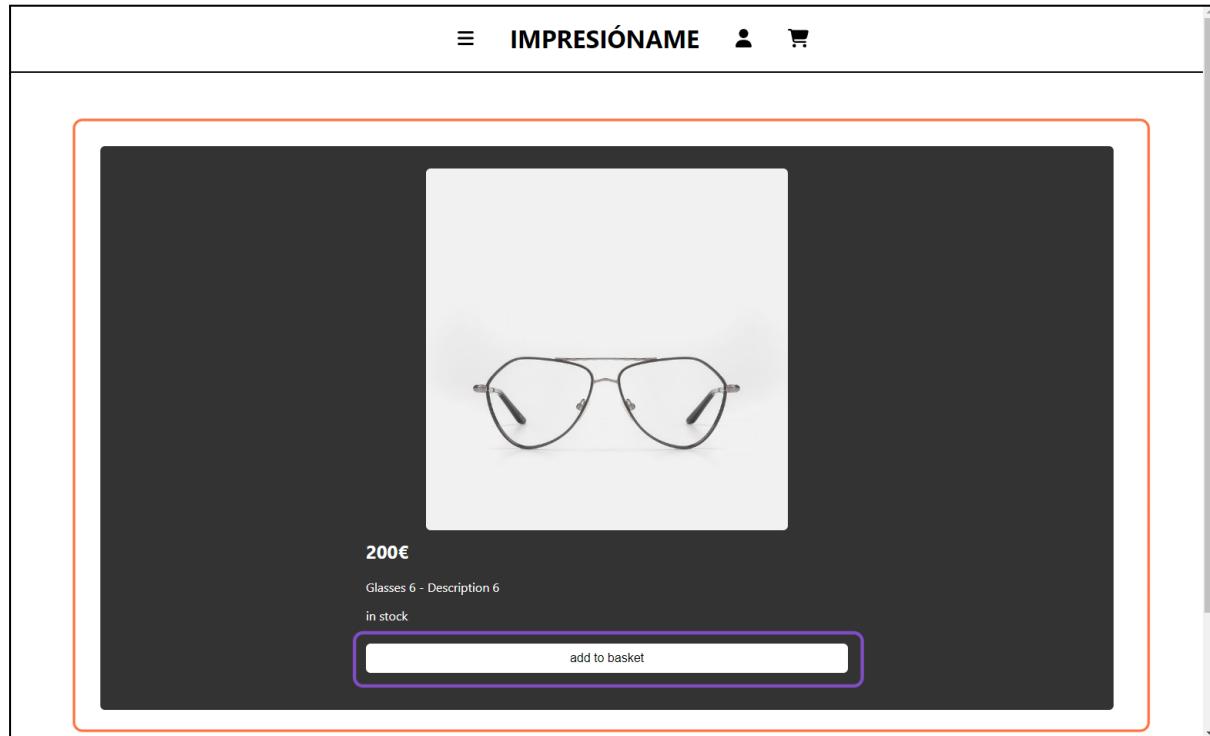

## View Articles

To see the articles or glasses we have three pages defined by categories, Men, Women and Kids, in this case we are on the Menu page, which we can access through the Home or the Slide Menu, each glasses has its own page, for example We will click on glass 6 to see its information.

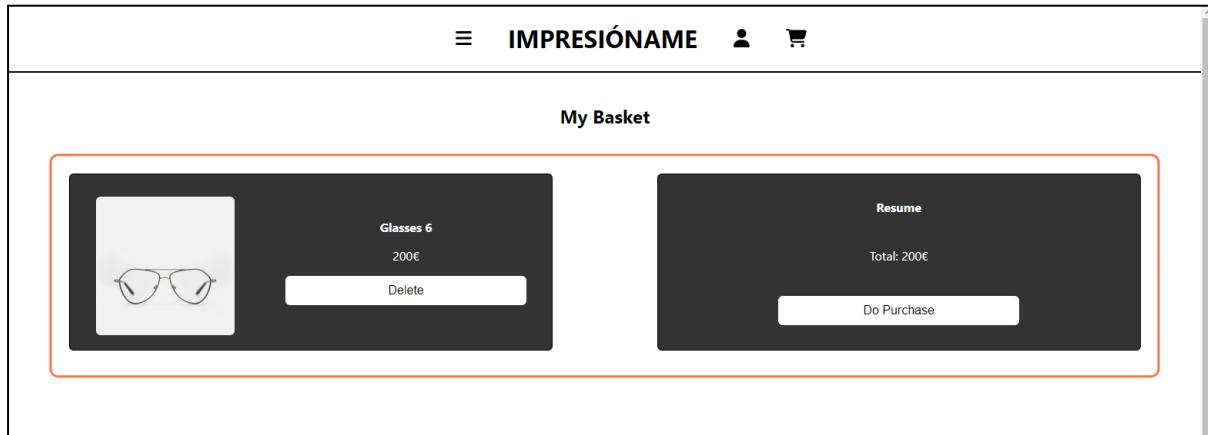

## Article Page

Here we will see the individual page of the glasses, in which using the button we will add the glasses to the basket.

## Do a Purchase

To make a purchase we must have one or more items in the basket, we must click the Do Purchase button in the resume.

## View Purchases

To see the purchases we can do it through the user page with the View Purchases button, and another way is automatically when making a purchase.
